"For the first time in history, nobody has any idea what the world will look like 10 years from now"
[Yuval Noah Harari, author Sapiens]

The WEF says 50% of all employees will need reskilling by 2025, and Problem Solving (aka Critical Thinking) covers positions 1,3,4,5 & 10 on their skills list)

McKinsey identified 56 foundational skills for the future, and 28% (all the cognitive ones) are covered by Critical Thinking

A 2023 study by LinkedIn identified Critical Thinking as the #3 most in-demand soft skill among employers

How do we develop our staff, in a world of such extreme uncertainty?

How do we teach decision making, assertive enough to outpace generative AI?

How do we problem solve, when we don't even know where the problems are coming from?

How can our people be assured of jobs, with AI making everyone equally intelligent?

Here's what our course brings to all but the most experienced consultants and Engineers:

- Fundamentally, CT converts intelligence into action. It is the difference between IQ and success. But, profoundly, it works as well for the less intelligent.
- It does this by breaking problems down into smaller parts, in such a manner that one is confident that those are the only parts
- A creative step, which we are unique in teaching, is the foundation of innovation and creativity; Our founder was most recently Deloitte Africa's head of Innovation and Growth.
- Sub-problems become easy to analyse, and the limited options remaining become easy to select from. Even when, as is often the case, all options are unattractive.
- This works for complex business problems, squishy life decisions, and right down to school-kid conundrums (our process is foundational in Singapore schools).
- This is THE missing skill in SA, where most people did not grow up with a C-suite parent.

SA's most credible Critical Thinking course

15 · 3 · +100

OUR COURSE IS SIGNIFICANTLY DIFFERENTIATED FROM ANY OTHER

PROVEN CREATIVITY

During our years as strategy and innovation leaders, we have developed a system to force incredibly creative solutions from this strictly logical MECE process. No-one else does this.

FACE TO FACE

Face-to-face teaching is significantly more effective than online or e-learning, and we bring proven SA biz doyens

TEAMWORK

Teamwork is essential for problem solving, and our entire program is designed around teams to impart these lessons

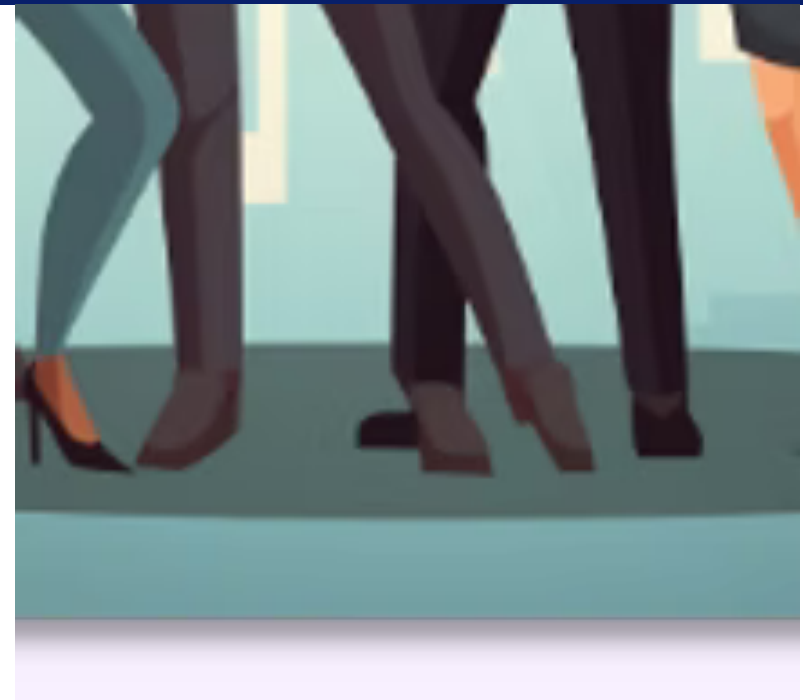

GENERATIVE AI

We teach how to work in teams to think critically, and now we offer a way to accelerate that process through a custom-made generative AI companion colleague

CRITICAL THINKING ADDRESSES A SUITE OF SKILLS

Our Critical Thinking program empowers your team to navigate complex challenges and make informed decisions with confidence. It is designed to equip your team with the tools to dissect problems, evaluate alternatives, and action outcomes. This is not just a program, but a transformative journey that will enhance your team's cognitive abilities and foster a culture of strategic thinking and innovation:

- **Problem solving:** How consultants solve any problem, in any environment, despite not having the same deep insight as tenured managers
- **Solutions, not problems:** Easily and rapidly changing the entire management culture to one of team solutioning
- **Strategic thinking:** How to map out all possible options, and confidently select the best (sometimes of the worst) ways forward

- **Confidently select the best (sometimes or the worst) ways forward**
- **Creative/innovative solutions:** Our unique methodology forces incredibly creative solutions, yet via a learnable structured process
- **Converting intelligence into action:** A key missing skills gap in SA, our framework gives candidates the confidence to act
- **Useful life skills:** A strong focus on personal application, leaves candidates feeling developed and valued as people, not workforce tools
- **Pyramid communication:** How consultants win an executive's mind, whereas employees fail on the same message (optional second day)
- **Using Generative AI:** How do we make our smart people get the same advantage from GenAI (the great leveller), that lesser intellects are gaining?

OUR FACILITATORS ARE PROVEN SA BUSINESS LEADERS

Chris Barker

Large-scale Nation-changing projects he led:

- Co-founded Right-to-Care, to solve SA HIV (which was achieved). Today that's a R2.7bn/yr NGO.
- Guided Anglo to be the first company in the world to fund employee HIV treatment (then built Direct AIDS Intervention for Alex Forbes which sold HIV management to over 30 large corporates)
- Co-founded Neotel, SA's largest BBBEE initiative, with 20 million indigent beneficiaries
- Led the MTN Iran bid, and was entrusted by the Board (specifically Cyril, Phutuma & Irene) to carry the \$27bn bid document & envelope into Iran
- Led all of SA's on-the-ground response to COVID over 2019 & 2020 (doubling SA beds, Oxygen to 6.5x normal supply, and installing SA's world-leading testing capacity)
- Built the SA vaccine program from scratch to a R40bn/yr managed revenue biz in 4 months, the fastest biz build in the history of SA

Strategy & problem-solving credentials:

- Ex McKinsey manager
- Arguably SA's top trainer in Critical Thinking

Other substantive Africa business building projects he has led:

- Co-founded RightMed pharmacy, SA's 3rd largest pharmacy retail group (HIV drug to NGOs)
- Co-founded & built Weather SA, the commercialisation of SAWS IP. Sold in 2017

- (aka problem solving, or consulting)
- Conceived and formed Deloitte Gigs, to attract top tier talent
- The turnaround of TopTV, concluding in a sale to Star Media
- The turnaround of Aquarius Platinum
- The turn and sale of Stutt Brick to Corobrick, a factory of 800 near indigent workers, in rural Bisho

SOME OF OUR CLIENTS

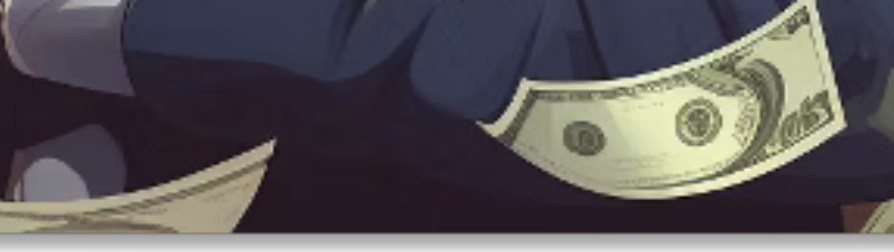

OUR PRICING (schools are [covered here](#))

We have a risk-free pricing model, to demonstrate our confidence:

- We are happy to do a 2hr sales pitch to senior management, which does a good job of demonstrating the content's value
- Each program is only paid for if delegates provide enthusiastically positive feedback (suggested criteria: more than 50% say they would have paid out of their own pocket)
- Corporate pricing is R4'000+VAT per delegate (min 20, max 30). Full day of in-person attendance required. Venue to be provided/

arranged by client. Travel costs plus 1 night for 2 persons charged extra, only when outside of JHB.

FutureForesight is a level 2, 51% black woman owned business, and our support staff are all black SA graduates.
